### Bulletin No. 1

## A Mistake in the Policy of the Bethlehem Steel Company

To the People:

The Senate of the United States has passed a bill to spend \$11,000,000 of the People's money to build a government armor plant. The measure is now before the House of Representatives.

It is said that manufacturers of armor have "gouged" the country in the past, and that a government plant is necessary to secure armor more cheaply.

The mistake of the Bethlehem Steel Company has been that it has kept quiet.

We have allowed irresponsible assertions to be made for so long without denial, that many people now believe them to be proven facts.

We shall make the mistake of silence no longer.

Henceforth we shall pursue a policy of publicity. Misinformation will not be permitted to go uncorrected.

It is and has been the policy of our Company to deal with the American Government fairly and squarely.

We shall henceforth place the details of our relations with the Government before the American People.

The United States has for twenty years obtained the highest grade of armor and has paid a lower price for it than has any other great naval power.

Figures officially compiled for the Senate Committee on Naval Affairs from the Naval Year Book show that under conditions prevailing just before the European war, the chief naval powers of the world were paying these prices for armor:

England, \$503 per ton; France, \$460; Germany, \$490; Japan, \$490; UNITED STATES, \$425.

A government plant cannot make armor any cheaper than we can do it; and—

We are prepared to manufacture armor at any price which the Government itself shall name as fair. **THAT BEING SO, SHOULD \$11,000,000 OF THE PEOPLE'S MONEY BE WASTED TO BUILD A GOVERNMENT PLANT?**

CHAS. M. SCHWAB, Chairman  
EUGENE G. GRACE, President

### WAS TROUBLED AT NIGHT.

Painful, annoying bladder weakness usually indicates kidney trouble. So do backache, rheumatism, sore, swollen or stiff muscles or joints. Such symptoms have been relieved by Foley Kidney Pills. ### News Bulletin

Larger postal savings deposits will now be accepted at the post office. This is made possible by an important amendment to the Postal Savings Act just approved by President Wilson. A postal savings depositor may now have an account amounting to \$1000 upon which interest will be paid. Formerly \$500 was the maximum amount he could have to his credit. This enlargement of postal savings facilities will be very gratifying to thousands of depositors who have already reached the old \$500 limit and are anxious to entrust more of their savings to Uncle Sam. Another feature of the amendment that will avoid further embarrassment to the public and to postal officials is the doing away with the limit on amount that could be accepted from a depositor monthly. Under the old law only \$100 could be deposited in a calendar month. The amendment abolishes this restriction. While the Postal Savings system has already proved a signal success as is shown by the fact that more than a half-a-million depositors have over eighty million dollars standing to their credit, still it has fallen short of meeting the full demands of the public because of the restrictions which have now been eliminated. Postmaster General Burleson and Third Assistant General Dockery have been tireless in their efforts to secure a modification of the limitations and the new liberalizing legislation is particularly gratifying to them.

After I used Doan's Kidney Pills, my kidneys were in better condition than they had been for years."
